

Greiner GA Systems

Enjoy the advantages of Greiner quality reagents —
Now in a complete system!

Greiner Analyzers

Greiner Diagnostic is developing 3 analyzers of different sizes and throughput for the Greiner GA Systems:

GA 400: constant speed of **400 tests/ hour** (640 with ISE)

GA 200: maximum speed of **240 tests/ hour**

GA 800: constant speed of **800 tests/ hour** (1200 with ISE)

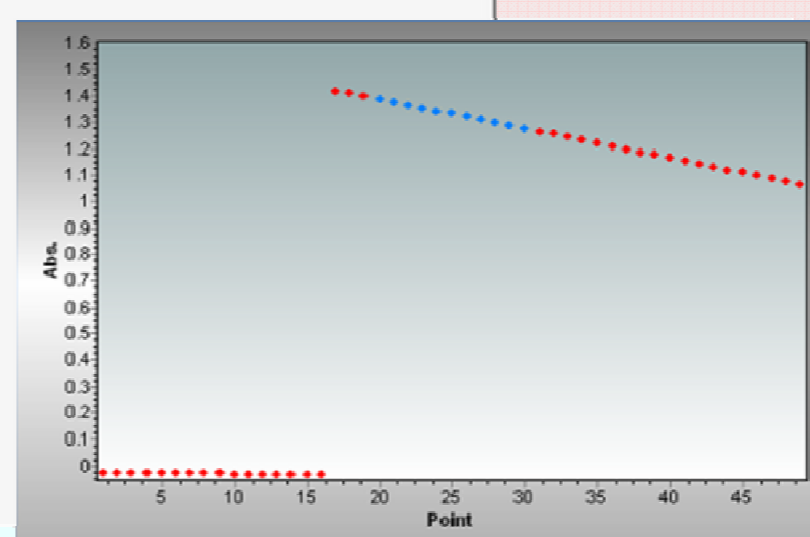

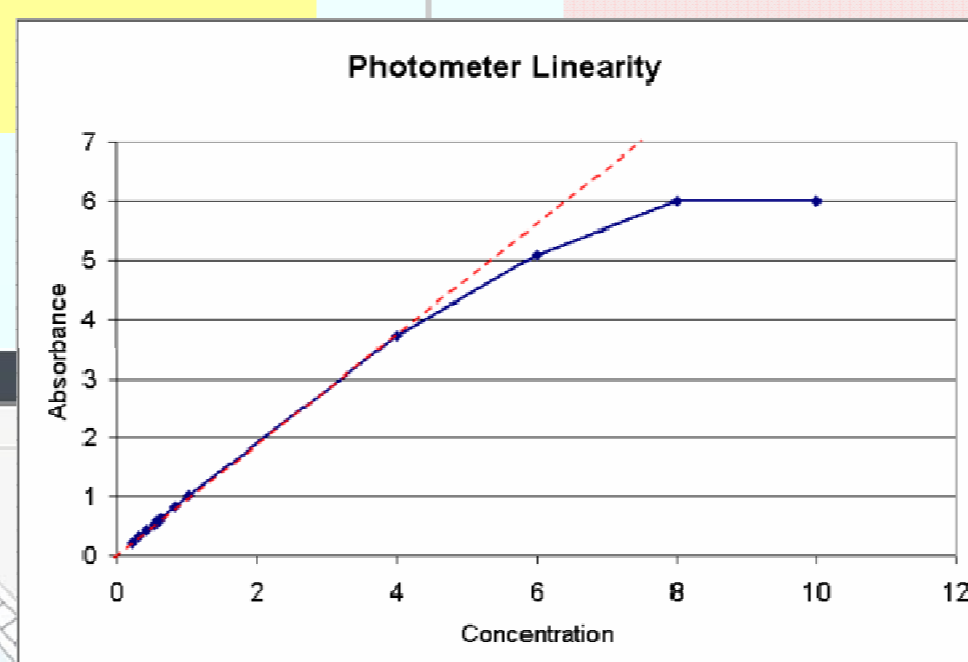

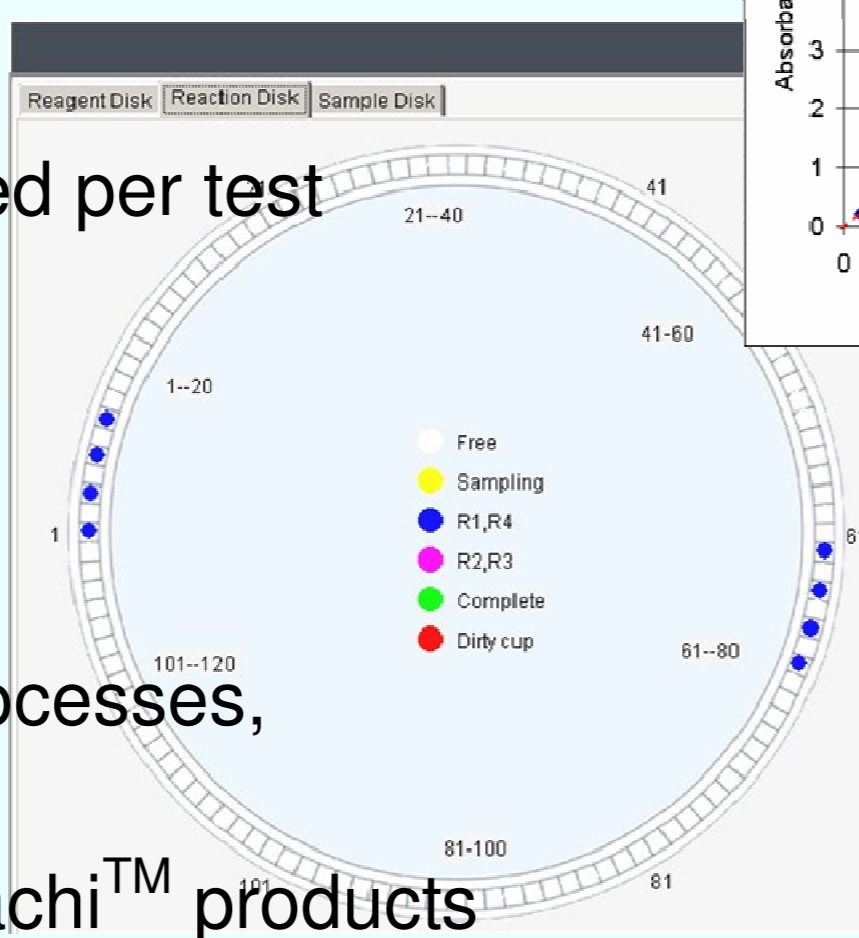

Greiner Advantages:

- ☐ 94 **barcodes** possible on instrument (partly individually selectable)
- ☐ >1000 test settings programmable
- ☐ 102 **customer-tailored preference tests**, selectable for omnipresent display
- ☐ Improved Greiner Software
- ☐ Language option: All software wording **changeable to your language**
- ☐ **Easy to use:** Shipping of fully programmed instruments
- ☐ Customer-friendly User Manual
- ☐ Choose the *colour* of your analyzer

Instrument Highlights:

- ☐ Superior photometer linearity
- ☐ Up to 4 reagents can be added per test
R1: instantly R2: 1.5 min
R3: 5 min R4: 9 min
- ☐ Reaction time ≤15 minutes
- ☐ On-line monitoring:
Reaction curves, analysis processes,
Liquid levels
- ☐ Consumables conform to Hitachi™ products

Greiner Reagents

Choose from our vast range of high quality reagents, tailor-made for our Greiner Analyzers:

- ☐ In-house production of reagents
- ☐ Liquid and lyophilized preparations
- ☐ **Highly concentrated** reagents
- ☐ Niche in-demand products
e.g. tests for **oxalate, pyruvate, ACE**, etc.
- ☐ **NEW!** Drug tests e.g. Amphetamine, Ecstasy, Opiate
- ☐ Anti-cross-contamination solutions, e.g. Cl ◀▶ Fe

Greiner Support

Greiner Support - close to the customer

Tell us your requirements -
we find the solution.

With our
Internet-Service,
we offer **remote** support, just like being there in person - anywhere in the world!

Become a member of the
Greiner Family!

⇒ **Get your complete Clinical Chemistry system from one source!**
⇒ **Perfectly coordinated reagents and instruments!**
